Press release from Muskogee County Transit as of 05/22/2019 4:00PM CDT

To our valued customers and community members who use our services for their transportation needs, at this time we will be remaining open if it is safe to do so for our drivers and customers. With high river waters and lowland flooding happening with worsening road conditions occurring we would like to inform you that we will have to limit our service to areas where flooding is not occurring. This means if you have a scheduled ride with one of our drivers and if your area is experiencing water over the roadways, we kindly ask that you call our office immediately at 918-682-1721 to cancel your ride. This is to ensure your safety as well as the safety of our drivers who work so very hard to provide service to you and your neighbors. We will happily reschedule you for a later date and time when flood waters have receded. As of this time we are shutting down our Muskogee to Tahlequah, as well as our Muskogee to Fort Gibson routes effective until flood waters receded to safe levels or until further notice.
